

Harrison Omondi Otieno

21070 – 00100, Moi Avenue, Nairobi, Kenya | +(254)799820376 | Harrison.otieno@invisible.email | otienoharrison95@gmail.com | <https://harrison-portfolio-pro.netlify.app> | <https://www.linkedin.com/in/harrison-otieno-442a12162> | <https://github.com/Ogalo>

Profile

I am a rare combo, with a unique blend of skills ranging from Design, Web development, and analytics. I'm the guy you want on your team.

Experience

AI DATA TRAINER | INVISIBLE TECHNOLOGY.INC. | SEPT 2023 - PRESENT

- Training the AI to read, write, summarize knowledge, and interpret meaning. Think of it like being a language arts teacher or a personal tutor for some of the world's most influential technologies.
- Generating examples of ideal conversations, acting as both the User and the AI for the AI to learn from, collecting sources helping it read large swaths of humanity's documented knowledge and distinguish between what is presented as fact vs. context vs. patterns of behavior.

FULL-STACK WEB DEVELOPER | ZARURI NET. | SEPT 2022 – PRESENT

- Designing both mobile and web applications using FIGMA
- Building Full stack Web Applications using MERN.
- Quality Survey and building and updating of new and old components.

SENIOR UNDERWRITER | INVISIBLE TECHNOLOGY. INC. | DEC 2022 – OCT 2023

- Assess clients' background information such as credit reports, bank statements, rental history, criminal history, eviction report, and financial status.
- Creating User Journals for guidance and training purposes for new agents.
- Analyze current issues to find alternatives to improve the performance and function of technology.

TECHNICAL SUPPORT ASSISTANCE | INVISIBLE TECHNOLOGY. INC. | JUNE 2021 – NOV 2022

- Responsible for daily task management, technical assistance, and troubleshooting support for agents' computer systems, and software.
- Provide technical assistance to engineers and technicians.
- Creating User Journals for guidance and training purposes for new agents.
- Creating and updating the SOP for Junior Underwriters.

DATA ANNOTATIONS | CLOUD FACTORY | DEC 2018 – OCT 2021

- Data Labeling: responsible for accurately labeling data according to predefined categories or classes. This could involve tasks such as tagging images, categorizing text, or labeling segments of audio.
- Quality Assurance: Ensuring the quality and accuracy of labeled data is paramount. Data annotators need to review and verify their annotations to maintain high-quality datasets, which is crucial for training robust machine learning models.
- Data Privacy and Security: Annotators must handle sensitive data responsibly and adhere to data privacy regulations and company policies. They should be aware of the importance of protecting personal and confidential information during the labeling process.

Education

MORINGA SCHOOL | NOV 2022.

Full stack web Developer.

THE UNIVERSITY OF NAIROBI. | SEPT 2022.

Bachelor of Science in Statistics.

DALWORTH TECHNICAL TRAINING INSTITUTE | OCT 2019.

Data analytics and visualization.

Hard | Technical Skills

- Full Stack Web Development: (React.js, Material UI, TypeScript, Vanilla JavaScript, HTML, CSS, NEXT.js, Vue.js, Python, Ruby on Rails, Node.js).
- Mobile and Web Design. Tools: (Figma).
- Microsoft Tools: (Excel, Word, PowerPoint, etc).
- Data Analytics tools: (STATA, SPSS, and R).
- Communication tools: (Slack, Zoom, Meet, Email, Zendesk, Sale Force).
- Google suites.
- Notion

Soft Skills

- Excellent interpersonal and communication skills.
- Poised under pressure
- Experienced in Remote work environment.
- Fun and energetic

Activities and Interests

I have participated in various hackathons and tech events, where I contributed by designing and building up solutions to solve various challenges.
